PROFESSIONAL SUMMARY

Passionate Java Full Stack Developer with strong foundations in Core Java, Spring Boot, MySQL, and Web Technologies. Seeking an entry-level position to utilize my analytical problem-solving skills and full-stack development knowledge to build scalable web applications.

TECHNICAL SKILLS

Programming Languages : Java (Core & Advanced), JavaScript, SQL

Backend Frameworks : Spring Boot, Hibernate, Servlets, JSP, JDBC, RESTful APIs

Frontend Technologies : HTML5, CSS3, JavaScript, Responsive Design

Databases & Tools : MySQL, Git, GitHub, VS Code, Eclipse

Core Concepts : OOPs, DBMS, Data Structures & Algorithms, Collections Framework

EDUCATION

Bachelor of Science (B.Sc - MPCs) | indira rajiv memorial degree college, kuppam | 2022 – 2025 **CGPA : 8.0 / 10**

Intermediate Education (MPC) | AP Model School & Junior College, Gudupalli | 2020 – 2022 **CGPA : 7.5 / 10**

Secondary School Education | AP Model School & Junior College, Gudupalli | 2019 - 2020 **CGPA : 9.7 / 10**

PROJECTS

RESTful API for Banking System

- Developed secure REST APIs for account creation, deposits, withdrawals, and fund transfers.
- Implemented transactional data persistence and history logging using Hibernate with MySQL.
- Designed clean endpoint structures following standard REST architecture principles.
- Handled request validations and exception handling for secure server responses.
- Tested and verified all backend endpoints using Postman API testing tool.

Full Stack E-Commerce Application

- Engineered an e-commerce platform with user login, cart features, and order processing.
- Integrated server-side logic using Servlets and JDBC with an interactive front-end.
- Built dynamic database queries in MySQL for product catalogs and inventory management.
- Designed a responsive user interface using HTML5, CSS3, and JavaScript.
- Implemented user authentication and session management for secure login flows.
